Allied Health Student Education

Description: NGMC provides clinical rotations for allied health students at NGMC. Educational affiliation agreements are maintained with each school/program, and NGMC's education services department ensures completion of all orientation and student health requirements prior to rotations. Most of these students work directly with NGMC staff since there are no instructors on campus, unlike nursing students who are accompanied by instructors.

Children's Center for Hope and Healing

Description: NGMC provided a sponsorship for The Children's Center for Hope and Healing, which is a community non profit providing counseling services to children affected by sexual abuse. Each year this organization hosts an educational conference. This year's the theme was "After the Trauma: Picking Up the Pieces." 135 professionals from the area attended the event. Our keynote speaker was Tom Scales, Co-Founder of The Innocence Revolution, and author of Terrible Things Happened to Me; A True Story of Violence and Victory. This event was a one-day workshop designed for educators, child advocates, nurses, therapists, attorneys, mental health professionals, juvenile justice personnel, and others whose professions pertain to the protection and caring of children.

Diabetes Monitoring Pilot Project

3/22/2016

Northeast Georgia Medical Center

Program Detail Full

For period from 10/1/2014 through 9/30/2015

Description: Results of the 2013 Community Health Needs Assessment indicate diabetes as one of the top 10 health priorities, specifically the need for more funding to cover the high cost of diabetes related medications as well as education on the awareness of the causes, prevention and intervention for obesity and diabetes.

The pilot project consists of providing patients with diabetes at the Health Department's Primary Care Clinic (HD), a small number of diabetic patients from one NGPG practice (Rios, MD), and patients with diabetes at Good News Clinics (GNCs) with free testing strips for a year as well as a testing meter if they do not have one in order to encourage routine testing.

Patients sign a written "compact" with the clinic that outlines their responsibilities and the clinic's responsibilities. Some of the patient responsibilities are that they agree to keep their appointments and attend educational classes as recommended by their physician (diabetes and nutrition classes).

The intent is to motivate patients to better manage their condition and provide them with the resources and education to do so. Results will be measured by A1C readings.

The project will last approximately one year, with a 6 and 12-month check points. Patients will have A1C tested so that results can be evaluated (beginning, 6 months, 12 months). A positive of this project is that we may be getting strips to people who may have not had strips before and this project will help patients better understand monitoring and impact of nutrition and exercise on their health status. The project began in March 2014 and as of December 2015, had 373 patients enrolled; of those who had returned for at least 1 A1C reading, 68.04% show a decreased A1c reading. The funding for strips and meters were provided by United Way of Hall County.

Good News Clinics Support

3/22/2016

Northeast Georgia Medical Center

Program Detail Full

For period from 10/1/2014 through 9/30/2015

Description: As part of our commitment to improving community health, NGMC has extended financial support to Good News Clinics (GNC) for FY15. NGMC provides GNC with approximately 33% of their operating budget annually. The two organizations are focused on improving patient outcomes and are actively aligning mutual goals. NGMC has also been instrumental in helping to provide a Congestive Heart Failure (CHF) Clinic at GNC. This project has been extremely successful with only 10 readmissions of GNC CHF patients in eight years. We will continue to track and monitor this success, as GNC is planning to enhance these services with home visits to newly diagnosed CHF patients by a trained physician assistant with both coronary care experience and research experience.

Indigent Patient Fund

3/22/2016

Northeast Georgia Medical Center

Program Detail Full

For period from 10/1/2014 through 9/30/2015

Description: This entry reflects the financial assistance provided for indigent patients to obtain urgently needed discharge medications and transportation. Individuals eligible for these funds are those patients whose needs cannot be met through primary insurance, their own personal funds, government programs, or other charitable services. This helps to ensure medication compliance and maximize conditions for recovery and recuperation.

Job Shadowing

Description: This program is coordinated via the Educational Services Department and allows high school and post secondary students from area schools to shadow professional healthcare staff for the purpose of better understanding the various healthcare roles. The primary purpose is to foster student interest in healthcare fields and encourage enrollment in programs of study that would train and educate future healthcare workers. This is an observational program requiring a staff mentor.

Northeast Georgia Council - Girl Scouts Support

3/22/2016

Northeast Georgia Medical Center

Program Detail Full

For period from 10/1/2014 through 9/30/2015

Description: The Northeast Georgia Girl Scout Council annually serves over 5,000 girls ages 5-17 in 25 counties in Northeast Georgia, including Hall County. Girl Scouts is a volunteer-based organization that relies on the efforts of adult volunteers. It also relies on the support and resources of individuals and communities throughout Northeast Georgia to continue to offer quality programs for girls. NGMC sponsored a table at their annual "Woman of Distinction" luncheon. The money raised by the luncheon supports the operations of the NE GA Girl Scouts.

Nurseline

Description: Nurseline is a free service to the public that provides telephone triage and health information services provided by a registered nurse. This service increases our region's and our community's access to medical information; eliminates medical information calls to the ED, thereby allowing nurses to care for the patients in the department in a more customer friendly manner; provides standardized medical information instead of just "nursing judgments"; and helps off-load physician office medical information calls, allowing them more time for their patients.

Pastoral Outreach Programs

Description: NGMC's pastoral care department, under the leadership of Jeff Thompson, held a Fall Clergy Conference, Continuing Pastoral Education Classes, a two Pastoral Crisis Intervention Programs, and a spring Clergy Fellowship conference in FY15. Over 60 clergy members from across North Georgia participated in these events.

Clinical Pastoral Education (CPE) is an experientially based educational learning model for those who want to explore their gifts of pastoral care in an institutional setting. It involves readings, classroom instruction, written assignments, group interaction, individual and group supervision and serving as a chaplain at the Medical Center. NGMC's Clinical Pastoral Education Program is accredited through The Association for Clinical Pastoral Education, Inc.

Patient Navigators

Description: NGMC has a patient navigation program. This program provides cancer patients with guidance throughout their cancer journey, and they are seen as a "living resource directory" for patients. Services include: providing emotional support, helping patients understand their diagnosis, communicating with healthcare staff and providers, addressing logistical issues such as transportation needs, and helping patients understand medical terms and treatment options. The Cancer Center offers the community two patient navigators as part of a comprehensive Patient Navigation program: One RN is a certified breast health navigator who works exclusively with breast cancer patients; and the second is an American Cancer Society patient resource navigator who assists all cancer patients and is bilingual.

Project SEARCH

Description: Project SEARCH provides employment and education opportunities for individuals with mild to moderate disabilities. The program is dedicated to workforce development that benefits the individual, community and workplace. Employers are challenged to increase employment opportunities for qualified persons with disabilities and to advocate on behalf of their employment to other organizations in their communities. The High School Transition Program is a one-year educational program for students with disabilities in their last year of high school. It is targeted for students whose main goal is competitive employment. 17 students and 3 job coaches participated in FY15. The students work 20 hours per week in each assigned dept. Mentors are assigned in each dept. Mentors also attend a monthly meeting to discuss progress/needs of students. Various NGMC employees, in addition to the mentors, offer assistance and education as needs arise.

Safe Kids Gainesville Hall/County

Description: Northeast Georgia Medical Center serves as lead agency for Safe Kids Gainesville/Hall County. The mission of Safe Kids is to reduce unintentional injuries and death in children 14 and under. In FY15, Safe Kids provided over 300 programs and events that reached an estimated 52,000 children and their family members, teachers and caregivers. Through these programs, over 5,400 safety devices were distributed to families who were in need of them. Safe Kids was funded in FY15 by The Medical Center Foundation's Healthy Journey Campaign.

Staff Time: Employee Giving Club and Medical Center Open

3/22/2016

Northeast Georgia Medical Center

Program Detail Full

For period from 10/1/2014 through 9/30/2015

Description: This entry reflects employee staff time devoted to raising funds for The Medical Center Foundation's employee giving club. Funds raised help support projects such as Safe Kids of Gainesville Hall County and donations to support the work of the American Heart Association, American Cancer Society and March of Dimes.

The entry also reflects staff time in raising funds for a community health project through the annual Medical Center Open Golf Tournament. Martha Nesbitt, PhD, and Michael Callahan, MD, co-chairs of the 22nd Annual Medical Center Open, announced that this year's golf tournament raised \$238,550, setting a new record for the Open. The tournament's beneficiary was Northeast Georgia Speech Center, and proceeds fund specialized therapy equipment for an outdoor sensory garden, an indoor sensory room and play area, a 15-passenger van and a video security system.

STEMI Conference

Description: Hosted each year by NGMC, the Northeast Georgia Regional STEMI Conference brings together paramedics, EMS staff and doctors from across the state. They meet to discuss the state of the Northeast Georgia Regional STEMI System – a collaborative effort between Northeast Georgia Medical Center and EMS in 15 counties across the region to provide fast and efficient treatment to patients suffering severe heart attacks known as STEMI (S-T Segment Elevation Myocardial Infarction). STEMI patients are in danger because their arteries are blocked, and blood isn't able to get to the heart, which causes these large heart attacks. The STEMI Program makes sure information about the heart attack is sent to NGMC while the ambulance is en route, so a cardiologist is waiting to restore the patient's blood flow almost immediately after he or she arrives. Keynote speakers at the conference include the nation's leading cardiologists and experts in the study of regional approaches to heart attack care.

The STEMI program benefits all patients, regardless of ability to pay.
