Community Health Needs Assessment Planning

6/8/2020

Northeast Georgia Medical Center

Program Detail Full

For period from 10/1/2018 through 9/30/2019

Description: This entry reflects the expense from the FY19 Community Health Needs Assessment planning and evaluation. NGMC's assessment includes healthcare partners in the region, community input, and a quantitative and qualitative assessment performed by IBM Watson Health.

The Community Health Needs Assessment for northeast Georgia has been presented and approved by each hospital partners' governing body, and the full assessment is available to the public at no cost via each CHNA Partner's website. Partners include District 2 Public Health, Habersham Medical Center, and Stephens County Hospital.

The CHNA partners collaborated with Watson Health to develop an interactive Tableau dashboard that displays the quantitative data collected as part of the 2019 CHNA. The Community Health Data provides access to over 120 county-level public health indicators as well as proprietary Watson Health estimates for demographics, community need, disease prevalence, insurance coverage, and emergency department visits. The dashboard is available to the community at <http://www.nghs.com/community-benefitresources>.

Good News Clinics Support

Description: As part of our commitment to improving community health, NGMC provides financial support to Good News Clinics (GNC). NGMC provides GNC with approximately 33% of their operating budget annually. The two organizations are focused on improving patient outcomes and are actively aligning mutual goals. NGMC has also been instrumental in helping to provide a Congestive Heart Failure (CHF) Clinic at GNC. This project has been extremely successful with preventing readmissions of GNC patients with CHF.

Additional health screenings are provided to vulnerable populations at GNC such as prostate screenings. Other services provided include a seizure clinic, diabetes education and management, and there is a registered dietitian on staff who helps patients with lifestyle modifications required for management of heart failure, diabetes and weight loss.

Nurse Education about NAS Interventions in NICU

Description: NGMC is the first in the nation to offer the CARES (Certified Addiction Recovery Specialists) program in its Neonatal Intensive Care Units (NICUs) to help families of babies born with Neonatal Abstinence Syndrome (NAS) find a path to recovery. NGMC also has dedicated NICU staff educating the families on how to care for their infant with NAS. Since the start of the program in 2018, Peer Recovery Coaches served in the capacity of 187 encounters and 1,207 follow-ups. Furthermore, NGMC NICU nurses sought specialized training to care for babies born addicted and their families; and not only implemented protocols that reduced the length of stay needed for these babies, but they are also empowering and strengthening the mothers and fathers to care for their babies. The NICU team was awarded with the 2019 Team Daisy Award for their work with babies born with NAS; which was so impactful, they presented their work at the Sigma Theta Tau International Nursing Honor Society Convention in Washington DC that connects thousands of nurses across 100 countries. This entry reflects only staff time for educating nurses in the community about successful interventions in the NICU for NAS.

Pastoral Outreach Programs

Description: In FY19, NGMC's pastoral care department, under the leadership of Jeff Thompson, held Clergy Seminars and Continuing Pastoral Education where 46 Clergy members from the community participated.

Clinical Pastoral Education (CPE) is an experience based educational learning model for those who want to explore their gifts of pastoral care in an institutional setting. It involves readings, classroom instruction, written assignments, group interaction, individual and group supervision and serving as a chaplain at the hospital. NGMC's Clinical Pastoral Education Program is accredited through The Association for Clinical Pastoral Education, Inc.

Prevent T2 Diabetes Program

6/8/2020

Northeast Georgia Medical Center

Program Detail Full

For period from 10/1/2018 through 9/30/2019

Description: NGMC Diabetes Education Program has partnered with the YMCA in Gainesville and Winder to offer a Type 2 diabetes prevention course, as well as, with Good News Clinics to help expand access to the program. This course is taught by a certified facilitator and is designed to offer the group support and encouragement needed to prevent diabetes. This program uses an evidence-based lifestyle program to help participants (with elevated risk for developing diabetes) understand and choose methods to decrease risk of getting diabetes. Run by NGMC's Diabetes Education Program, the Prevent T2 Program has received full recognition status through the CDC. Full recognition means that a program has demonstrated effectiveness by achieving all of the performance criteria detailed in the CDC's Diabetes Prevention Recognition Program Standards. This entry reflects the cost of supplies and staff time facilitating for the program.

Project SEARCH

Description: Project SEARCH provides employment and education opportunities for individuals with mild to moderate disabilities. The program is dedicated to workforce development that benefits the individual, community and workplace. Employers are challenged to increase employment opportunities for qualified persons with disabilities and to advocate on behalf of their employment to other organizations in their communities. The High School Transition Program is a one-year educational program for students with disabilities in their last year of high school. It is targeted for students whose main goal is competitive employment. In FY19, 16 students participated. The students work 20 hours per week in each assigned department. Mentors are assigned in each department. Mentors also attend a monthly meeting to discuss progress/needs of students. Various NGMC employees, in addition to the mentors, offer assistance and education as needs arise.

Respecting Choices- Advanced Care Planning Education

6/8/2020

Northeast Georgia Medical Center

Program Detail Full

For period from 10/1/2018 through 9/30/2019

Description: Respecting Choices is an evidence-based model of advanced care planning that honors an individual's goals and values for current and future health care. This program is designed to create a culture of open discussion about end of life care in Northeast Georgia so that families are relieved of unnecessary stress and to avoid the use of expensive resources that patients don't value nor benefit from. This project is funded by the NGHS Foundation. As a collaborative effort between the Wisdom Project 2030 and NGHS, Plan in a Can emerged. In an emergency, EMT/EMS will locate a person's Plan in a Can and take it with them to the hospital. The can should contain a copy of the individual's Advance Care Directive, health information, identification and other important items. Education has been shared with the community about how to make one and where to store it.

Safe Kids Northeast Georgia

Description: Northeast Georgia Medical Center serves as lead agency for Safe Kids Gainesville/Hall County. The mission of Safe Kids is to reduce unintentional injuries and death in children 19 and under. In FY19, Safe Kids provided over 131 programs and events that reached an estimated 25,000 children and their family members, teachers and caregivers. Through these programs, over 3,500 safety items were distributed to families who were in need of them. Safe Kids was funded in FY19 by The Medical Center Foundation's Healthy Journey Campaign.

STEMI Conference and Cardiology Education

Description: Hosted each year by NGMC, the Northeast Georgia Regional STEMI Conference brings together paramedics, EMS staff and doctors from across the state. They meet to discuss the state of the Northeast Georgia Regional STEMI System – a collaborative effort between Northeast Georgia Medical Center and EMS in 18 counties across the region to provide fast and efficient treatment to patients suffering severe heart attacks known as STEMI (S-T Segment Elevation Myocardial Infarction). STEMI patients are in danger because their arteries are blocked, and blood isn't able to get to the heart, which causes these large heart attacks. The STEMI Program makes sure information about the heart attack is sent to NGMC while the ambulance is en route, so a cardiologist is waiting to restore the patient's blood flow almost immediately after he or she arrives. Keynote speakers at the conference include the nation's leading cardiologists and experts in the study of regional approaches to heart attack care. The 2019 conference educated more than 1,500 medical professionals and first responders.

The STEMI program benefits all patients, regardless of ability to pay. NGMC also provided education to people in the community on a wide range of cardiology health topics.
