INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Northeast Georgia Medical Center, Inc.:

Opinion

We have audited the financial statements of Northeast Georgia Medical Center, Inc. (NGMC), which comprise the balance sheets as of September 30, 2025 and 2024; the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of NGMC as of September 30, 2025 and 2024, and the results of its operations, changes in net assets, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of NGMC and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Sole Member of Northeast Georgia Health System, Inc. (NGHS)

NGMC is an entity whose sole member is NGHS and is part of a group of entities controlled or managed by NGHS. As discussed in Note A, NGHS allocates various expenses and liabilities to members of this group of entities, and, as such, the accompanying financial statements reflect the results of these allocations and not necessarily the results of NGMC on a stand-alone basis. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

1

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about NGMC's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NGMC's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about NGMC's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTE A--ORGANIZATION AND OPERATIONS

Northeast Georgia Medical Center, Inc. (NGMC) was formed to serve and promote the public health of the general population and operates an acute care hospital with a 629-bed campus in Gainesville, a 236-bed campus in Braselton, and related facilities, for the benefit of the general public. Braselton ASC, LLC (Braselton ASC) is an Ambulatory Surgery Center that was formed to provide more access to outpatient surgical services.

Northeast Georgia Health System, Inc. (NGHS) is the parent company to NGMC. The financial statements of NGMC are included in the consolidated financial statements of NGHS and affiliates. The accompanying financial statements reflect the financial position and operating results of NGMC and include various allocations of expenses, gains, losses, and associated liabilities from NGHS. Certain disclosures herein relate to NGHS as a whole (rather than just NGMC) and are identified as NGHS disclosures in the notes to the financial statements. Due to the nature of allocations of NGHS activities and liabilities to NGMC, these financial statements may not reflect the financial position and results of operations of NGMC on a stand-alone basis.

NOTE B--SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Significant estimates include estimated explicit and implicit price concessions, amounts due to or from third-party payers, investment valuations, allocations of functional expenses, depreciable lives, and impairment considerations of property and equipment, deferred liabilities, and professional and other insurance liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents: Cash and cash equivalents include cash and short-term deposits and similar money market instruments, with maturities of less than three months when purchased, excluding amounts included as assets limited as to use or in the long-term investment portfolio.

Investments and Assets Limited as to Use: Investments and assets limited as to use are stated at fair value based on quoted market prices, and investments without quoted market prices are reported at estimated fair market value utilizing observable and unobservable inputs. Substantially all investments are classified as trading securities. The portion of investments related to financial instruments with remaining maturities of less than one year and the portion of assets limited as to use that is required to satisfy current obligations are classified as current assets.

Years Ended September 30, 2025 and 2024

Assets limited as to use include assets held by trustees under bond indenture agreements, assets held by trustees under professional liability and workers' compensation self-insurance trust arrangements, and assets designated by the Board for specific purposes.

Interest and dividend investment income on proceeds of borrowings that are held by trustees, to the extent not capitalized, is reported as a part of other operating revenue. Investment income and losses on all other investments and assets limited as to use (including gains and losses on sales of proceeds of borrowings that are held by trustees) is reported, net of investment expenses, as nonoperating gains and losses. The cost of securities sold is determined on the specific identification method, with net realized gains and losses reported as nonoperating gains and losses.

Unrealized gains and losses on investments and assets limited as to use are recorded as nonoperating gains or losses from investments.

Inventory of Supplies: Inventory consists of medical and other supplies and is stated at the lower of cost or net realizable value, with cost determined by the first-in, first-out method.

Other Current Assets: NGMC pays for various service agreements in advance of the service periods. These prepaid expenses are capitalized and amortized over the service period. NGMC is also involved in various agreements and contractual arrangements under which they have an unconditional obligation to receive payments at September 30, 2025 and 2024. These non-patient receivables are expected to be settled in less than twelve months from year end and have been included in other current assets in the accompanying Balance Sheets. The balance of other current assets in the accompanying Balance Sheets is comprised of the following at September 30:

	<u>2025</u>	<u>2024</u>
Prepays	\$ 20,608	\$ 16,379
Other receivables	14,909	10,650
Estimated amounts due from third-party payers	7,534	35,080
Other current assets	<u>\$ 43,051</u>	<u>\$ 62,109</u>

Property, Equipment, and Depreciation: Property and equipment is stated at cost, net of accumulated depreciation. Depreciation is computed by the straight-line method over the estimated useful lives of the assets using the half-year method. The depreciable lives range from 2 to 40 years for buildings, building components, and leasehold improvements, and from 3 to 20 years for equipment and vehicles. Expenditures for maintenance, repairs, and minor renewals are charged to operations as incurred. Expenditures for betterments and major renewals are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are

removed from the financial statements. Any resulting gain or loss is included in nonoperating gains and losses. Asset retirement obligations are recorded as a liability when property and equipment are acquired or when events occur that create a liability that is reasonably estimable. No such liabilities were identified and recorded during the years ended September 30, 2025 or 2024.

During the year ended September 30, 2025, management completed an assessment of the useful lives of buildings and equipment based on NGHS's experience with the duration over which buildings and equipment are being utilized. NGHS engaged a third-party to assist in this review, and the review was based on a combination of evaluations conducted by third-party consultants and management estimates. As a result of this assessment, the average useful life of NGHS's building assets increased from 19.5 years to 28.3 years, and the average useful life of NGHS's equipment increased from 8.4 years to 12.3 years. The change in accounting estimates became effective October 1, 2024. For NGHS, the change in useful lives resulted in a net reduction of depreciation expense of approximately \$29,500 for the year ended September 30, 2025, as compared to the amount of depreciation expense that would have been recorded by utilizing the prior depreciable lives.

NGMC periodically reviews property and equipment for indicators of potential impairment of long-lived assets and, if such review indicates carrying amounts may not be recoverable, adjusts the carrying value and recognizes a loss. Management does not believe that any unrecognized impairment exists at September 30, 2025 and 2024, respectively.

Capitalized Interest: NGMC capitalizes interest costs incurred in financing expenditures for property during a required construction or development period in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 835-20-15-5. Capitalized interest consists primarily of interest incurred related to the construction of medical facilities for which deposits or progress payments have been made. Interest costs incurred during the years ended September 30, 2025 and 2024, are \$43,926 and \$32,977, respectively. During the years ended September 30, 2025 and 2024, the NGMC capitalized interest in the amounts of \$4,700 and \$7,580, respectively. Capitalized interest is included in the cost of the respective property for which the interest was incurred and is included in property and equipment in the Balance Sheets. NGMC's capitalization policy is based on the weighted-average interest rate on borrowings specifically related to the construction projects and applied to qualifying expenditures incurred during the construction period. For the years ended September 30, 2025 and 2024, the capitalization rates used to determine capitalized interest range between 2.50% to 5.00% based on interest rates of the outstanding Revenue Anticipation Certificates Series 2024 and Series 2021A.

Lease Liabilities and Right-of-Use Assets: NGMC determines if an arrangement is a lease at inception and classifies its leases at commencement. Leases are classified as either a finance lease or an operating lease. NGMC does not recognize right-of-use assets or lease liabilities for leases

Notes to Financial Statements - Continued
(Dollars in Thousands)

Years Ended September 30, 2025 and 2024

with a term of 12 months or less. The present value of the future minimum lease payments over the lease term is recorded as a lease liability at the commencement of a contract that has a term in excess of one year. The present value is determined by discounting the required payments using the stated or implicit interest rate in the lease or, if not stated or implied, NGMC's incremental borrowing rate, which was 7.00% for the years ended September 30, 2025 and 2024. NGMC has lease agreements that contain both lease and non-lease components, which it has elected to combine. As such, future minimum lease payments include fixed payments for non-lease components within a lease agreement but exclude variable lease payments not dependent on an index or rate, such as common area maintenance, operating expenses, utilities, or other costs that are subject to fluctuation. NGMC's lease terms may include options to extend or terminate the lease. Periods beyond the noncancellable term of the lease are included in the measurement of the lease liability when it is reasonably certain that NGMC will exercise the associated extension option or waive the termination option. A right-of-use asset is also recorded equal to the lease liability plus any initial direct costs, prepayments, or incentives. NGMC periodically reviews right-of-use assets for indications of potential impairment. If such review indicates carrying amounts may not be recoverable, the carrying value is adjusted, and a loss is recorded. No impairment losses were recognized during the years ended September 30, 2025 or 2024.

Other Long-Term Assets: During fiscal year 2023, NGMC capitalized implementation costs, in accordance with Accounting Standards Codification (ASC) 350-40, related to the development of internal-use software. These costs and the accumulated amortization are included in other long-term assets. The asset is amortized over its estimated useful life of seven years. Amortization expense for the years ended September 30, 2025 and 2024, was \$2,486 and is included in depreciation and amortization expense in the Statements of Operations and Changes in Net Assets. The capitalized asset is composed of the following for the years ended:

	<i>September 30,</i>	
	<i>2025</i>	<i>2024</i>
Gross software implementation fees	\$ 17,400	\$ 17,400
Less: Accumulated amortization	(7,458)	(4,972)
	<u>\$ 9,942</u>	<u>\$ 12,428</u>

Scheduled amortization expense for each year of the remaining useful life and in the aggregate at September 30, 2025, are as follows:

<i>Year Ending September 30,</i>	
<u>2026</u>	\$ 2,486

	<u>\$ 9,942</u>

Deferred Financing Costs: Deferred financing costs relate to NGMC's long-term debt and are amortized over the terms of the respective issues in a manner that approximates the effective interest method and are reported as a direct deduction of the related long-term debt.

Estimated Professional Liability Self-Insurance and Other Long-Term Liabilities: Self-insurance liabilities include estimated reserves for reported and unreported professional liability claims and are recorded at the estimated net present value of such claims (Note K). Such estimates are subject to significant change in future periods. Other long-term liabilities include obligations under deferred compensation arrangements and other liabilities that management estimates are not payable within one year.

Excess of Revenue and Gains Over Expenses and Losses: The Statements of Operations and Changes in Net Assets include *Excess of Revenue and Gains Over Expenses and Losses*. Changes in net assets without donor restrictions, which are excluded from *Excess of Revenue and Gains Over Expenses and Losses*, consistent with industry practice, include transfers of assets to and from affiliates for other than goods or services, and contributions of long-lived assets, including assets acquired using contributions which by donor restriction were to be used for the purpose of acquiring such assets.

Transactions deemed by management to be ongoing, major, or central to the provision of healthcare services of NGMC are reported as operating revenues and expenses. Peripheral or incidental transactions are reported as nonoperating gains and losses.

Charity Care: NGMC provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Generally, care provided for a patient whose household income is at or below 300 percent of the federal poverty guidelines is approved for charity care. Because NGMC does not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as revenue. Additionally, under an agreement with the Georgia Department of Community Health Division of Medical Assistance (Georgia Medicaid), the Hospital Authority of Hall County, and the City of Gainesville through NGMC pays into an indigent care trust fund and is then eligible to receive indigent care trust fund payments. Charges foregone, based on established rates, related to charity care were \$370,385 and \$334,659 in 2025 and 2024, respectively. During the year ended September 30, 2024, \$1,396 of indigent care trust fund proceeds were recouped. At September 30, 2025, NGMC has accrued for indigent care trust fund proceeds of \$3,849 to be recouped related to prior years.

NORTHEAST GEORGIA MEDICAL CENTER, INC.

Notes to Financial Statements - Continued
(Dollars in Thousands)

Years Ended September 30, 2025 and 2024

The estimated cost of providing charity care totaled \$74,595 and \$67,662 for the years ended September 30, 2025 and 2024, respectively. The estimated costs of providing charity care are based on a calculation that applies a ratio of costs to charges to the gross uncompensated charges associated with providing charity care. The ratio of costs to charges is calculated based on NGMC's total expenses divided by gross patient service revenue.

In addition to the patient charity care services, NGMC provides a number of other services to benefit the impoverished for which little or no payment is received. Medicare, Medicaid, and State indigent programs do not cover the full cost of providing care to beneficiaries of those programs. NGMC also provides services to the community at large, for which it receives little or no payment. Explicit price concessions for the years ended September 30, 2025 and 2024, include approximately \$106,455 and \$93,611, respectively, related to discounts provided to self-insured patients in order to facilitate prompt payment.

Patient Service Revenue/Receivables: Patient service revenue is reported on the accrual basis and reflects the amount that NGMC expects to receive in exchange for services provided during the period, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Revenue is recognized as performance obligations are satisfied. Performance obligations are determined based on the nature of the services provided and may have a term of several days or longer. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected charges.

Generally, NGMC performance obligations satisfied over time relate to patients receiving inpatient acute care services. NGMC measures the performance obligation from admission into one of NGMC's facilities, or the commencement of an outpatient service, to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge or completion of the outpatient services.

All of NGMC's performance obligations relate to contracts with a duration of less than one year; therefore, NGMC has elected to apply the optional exemptions provided in FASB ASC 606-10-50-14(a) and as a result, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

NGMC determines the transaction price for patient service revenue based on standard charges for goods and services provided, reduced by explicit price concessions for contractual adjustments provided to third-party payers, discounts provided to uninsured patients in accordance with

NGMC's financial assistance policy, and implicit price concessions provided to uninsured or under-insured patients. NGMC determines its estimates of contractual adjustments and discounts based on contractual agreements, its discount policies, and historical experience. Implicit price concessions are mainly comprised of amounts due directly from patients and represent NGMC's primary collection risk. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the age of those accounts. Accounts are written off when all reasonable collection efforts have been made. NGMC determines its estimate of implicit price concessions based on an analysis of historical loss experience and expected net collections, business and economic conditions, trends in federal, state, and private employer health care coverage, and other collection indicators.

Retroactive adjustments for third-party payers are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined or additional information is obtained.

Patient accounts receivable are reported net of both an estimated allowance for explicit price concessions and an allowance for implicit price concessions. NGMC receives payments for services rendered from federal and state agencies, managed care health plans, commercial insurance companies, employers, and patients. NGMC recognizes that revenues and receivables from government agencies are significant to its operations but does not believe there are significant credit risks associated with these government agencies. NGMC does not believe there are any other significant concentrations of revenues from any particular payer that would subject NGMC to any significant credit risks in the collection of accounts receivable. NGMC's policy does not require collateral or other security for patient accounts receivable. NGMC routinely accepts assignment of, or is otherwise entitled to receive, patient benefits payable under health insurance programs, plans, or policies.

NGMC has elected the practical expedient allowed under FASB ASC 606-10-32-18 and does not adjust the promised amount of consideration from patients and third-party payers for the effects of a significant financing component due to NGMC's expectation that the period between the time the service is provided to a patient and the time that the patient or a third-party payer pays for that service will be one year or less. NGMC does, in certain instances, enter into payment agreements with patients that allow payments in excess of one year. However, in these cases, the financing component is not deemed to be significant to the contracts.

Income Taxes: NGMC is classified as an organization exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. As such, no provision for income taxes has been made in the accompanying financial statements. At September 30, 2025 and 2024, respectively, management does not believe NGMC holds any uncertain tax positions that would require financial statement recognition or disclosure under generally accepted accounting principles. It is

NGMC's policy to recognize interest and/or penalties related to income tax matters as an operating expense where applicable.

Other Revenue: NGMC received new capitalization funds from the Georgia Board of Health Care Workforce (GBHCW) in the amount of \$8,291 and \$7,208 for the years ended September 30, 2025 and 2024, respectively, to develop and grow training programs for primary care physicians. In addition, \$2,807 and \$2,888 of funds were accrued from the GBHCW for the years ended September 30, 2025 and 2024, respectively. These funds are recognized as other operating revenue in the accompanying Statements of Operations and Changes in Net Assets. Amounts accrued are included in other current assets in the accompanying Balance Sheets.

NOTE C--NET PATIENT SERVICE REVENUE/RECEIVABLES

NGMC has agreements with various third-party payers that provide for payments at amounts different from established rates. A summary of the payment arrangements with significant third-party payers follows:

Medicare: Acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates based upon diagnostic related group assignments, which are determined by the patient's clinical diagnosis and medical procedures utilized. NGMC receives additional payments from Medicare based on the provision of services to a disproportionate share of Medicaid and other low-income patients. The Medicare program reimburses for outpatient services under a prospective method utilizing an ambulatory payment classification system which classifies outpatient services based upon medical procedures and diagnosis codes. Certain nonacute services and defined capital costs are paid based on a cost reimbursement methodology. NGMC is paid at a tentative rate with final settlement determined after submission of their annual cost reports and audits thereof by the Medicare fiscal intermediary.

Medicaid: Inpatient acute care services rendered to Medicaid program beneficiaries are paid based on prospectively determined rates per discharge using diagnosis related group assignments. Outpatient services are paid under a cost reimbursement methodology at a tentative rate with final settlement determined after submission of annual cost reports and audits thereof by the Georgia Department of Community Health.

Other: NGMC has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, preferred provider organizations, and employer groups. The basis for payment under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Amounts recorded under certain of these contractual arrangements are subject to review and final determination by various program intermediaries. Settlements with third-party payers for retroactive adjustments due to audits, reviews, or investigations are considered variable considerations and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payer, correspondence from the payer, and historical settlement activity, including an assessment to ensure that a significant reversal of revenue recognized will not occur. Estimated settlements are adjusted in future periods as adjustments become known or as years are settled or are no longer subject to such audits, reviews, and investigations. No significant amount of patient service revenue was recognized for the years ended September 30, 2025 and 2024, as a result of changes in or adjustments to prior years' settlement estimates or final settlements of prior periods. Medicare cost reports prior to 2019 have generally been settled, and Medicaid cost reports prior to 2023 have generally been settled.

Generally, patients who are covered by third-party payers are responsible for related deductibles and coinsurance, which vary in amount. NGMC also provides services to uninsured and underinsured patients who do not qualify for financial assistance. Based on historical experience, a significant portion of uninsured and underinsured patients are unable or unwilling to pay for their responsible amounts for services provided and a significant discount for this implicit price concession is recorded in the period services are provided.

Using a portfolio approach, NGMC estimates the transaction price for patients with deductibles and coinsurance and from those who are uninsured based on historical experience, current market conditions, and anticipated or known changes in economic conditions or events. In addition, for uninsured patients, NGMC reduces charges from current rates based on average discounts provided to certain third-party payers. The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts, and implicit price concessions. Subsequent changes to the estimate of the transaction price are recorded as adjustments to patient service revenue in the period of the change. Adjustments for such changes in the estimated transaction price were not significant for the years ended September 30, 2025 and 2024. Subsequent changes that are determined to be the result of an adverse change in the patient's ability or intention to pay are recorded as bad debt expense or a provision for credit losses. No significant amount of bad debt expense or provision of credit losses were reported for the years ended September 30, 2025 and 2024.

NGMC participates in the Strengthening The Reinvestment Of a Necessary-Workforce in Georgia Program (GA-STRONG). The GA-STRONG program is designed to address Georgia's healthcare workforce shortage through increased funding for hospitals on the front lines of workforce development. The net reimbursement benefit from GA-STRONG funding recognized is included in patient service revenue as a reduction in related contractual adjustments in the accompanying

Statements of Operations and Changes in Net Assets, and amounts accrued are included in other current assets or estimated amounts due to third-party payers in the accompanying Balance Sheets. Amounts accrued at September 30, 2025 and 2024, relate to program funding owed to NGMC for the respective fiscal year or amounts estimated to be recouped that are due from NGMC to the third party. Amounts recognized and received during the years ended September 30, 2025 and 2024, and accrued as of September 30, 2025 and 2024, for the GA-STRONG program are as follows:

NGMC also participates in the Georgia DCH Hospital Direct Payment Program (HDPP). The HDPP provides additional Medicaid funding for eligible participating public hospitals. This program is designed to increase provider funding of critical services for the Medicaid population and strengthen Georgia's healthcare workforce. The net reimbursement benefit from HDPP funding is included in patient service revenue as a reduction in related contractual adjustments in the accompanying Statements of Operations and Changes in Net Assets, and amounts accrued are included in other current assets or estimated amounts due to third-party payers in the Balance Sheets. Amounts accrued at September 30, 2025 and 2024, relate to program funding owed to NGMC for the respective fiscal year or amounts estimated to be recouped that are due from NGMC to the third party. Amounts recognized and received during the years ended September 30, 2025 and 2024, and accrued as of September 30, 2025 and 2024, for the HDPP are as follows:

Effective July 1, 2010, the state of Georgia enacted legislation known as the Provider Payment Agreement Act (the Act) whereby certain hospitals, as defined in the Act, are assessed a “provider payment” in the amount of 1.45% of their net patient service revenue, as defined in the Act. The payments are to be used for the sole purpose of obtaining federal financial participation for medical assistance payments to providers on behalf of Medicaid recipients and are considered a community benefit by providers. Approximately \$22,797 and \$21,253 relating to the Act are included in other operating expenses in the accompanying Statements of Operations and Changes in Net Assets for the years ended September 30, 2025 and 2024, respectively.

Patient service revenue, net of contractual adjustments, discounts, and implicit price concessions based on the type of service, is composed of the following for the year ended September 30:

Anticipation Certificates that are exempt from Federal income tax. The Authority loans the proceeds from the sale of the certificates to NGHS and NGMC. For each issue of certificates, there is a trust indenture that controls the business terms of that debt. NGHS and NGMC (the Obligated Group) are bound by a note payable to the Authority to provide amounts sufficient to pay the maturing installments of principal and interest. The trust indentures require that certain funds be deposited with the trustee. These funds are included in assets limited as to use in the accompanying Balance Sheets and are available to pay principal and interest, subject to the provisions of the indentures.

In connection with the formation of NGHS, the Authority entered into a lease agreement dated October 1, 1986, with NGMC, whereby the Authority leased all of its assets (including the main hospital campus) to NGMC. In return, NGMC assumed all of the debt and other obligations of the Authority. The lease includes ongoing covenants, including a duty to provide indigent care. The lease had an initial term of forty years and has since been extended to September 1, 2054. Management believes that NGMC was in compliance with all of its lease obligations as of September 30, 2025.

All of the outstanding Revenue Anticipation Certificates are secured by a Master Trust Agreement, with parity to all issues, whereby the Obligated Group has pledged all of its gross revenues to secure the prompt payment of the certificates. The Master Trust Agreement limits additional indebtedness and provides that any default on any obligation secured under the Master Trust Agreement is a default under the Master Trust Agreement as well. NGMC has also mortgaged its interest in the main hospital campus (including equipment and related assets) to the Master Trustee under a 2010 Leasehold Deed to Secure Debt and Security Agreement. The Master Trust Agreement dated February 1, 2010, was amended and restated as of March 1, 2020, pursuant to the Series 2020A Certificates issuance. The Master Trust Agreement is supplemented by Supplemental Master Indentures issued with the Series 2021 Certificates, dated as of September 1, 2021, and the Supplemental Master Indentures issued with the Series 2024 Certificates, dated as of July 1, 2024.

The terms of the various indentures require the maintenance of certain financial ratios and compliance with other covenants. Management believes the Obligated Group was in compliance with all financial and other covenants as of September 30, 2025 and 2024, respectively.

In July 2024, the Obligated Group issued Revenue Anticipation Certificates Series 2024 in the aggregate principal amount of \$246,920. The proceeds of the sale of the Series 2024 Certificates were used to (i) finance or reimburse NGHS or its affiliates for the cost of the acquisition, construction, installation, and equipping of certain medical facilities and equipment owned or operated by NGHS or its affiliates and (ii) pay related costs of issuing the Series 2024 Certificates. The Series 2024 Certificates bear interest at a rate of 5.00%. Interest on the Series 2024 Certificates

shall accrue interest based on the actual number of days elapsed during the interest rate period and a year of 360 days. The 2024 Certificates, maturing on October 15, 2034, are subject to mandatory sinking fund redemption payments on October 15, 2030, and October 15, 2034, in the amounts of \$120,375 and \$126,545, respectively. The sale proceeds of the Series 2024 Certificates were subject to an original issue premium and issuance costs of \$29,756 and \$1,676, respectively, and will be amortized monthly in accordance with the term of the Series 2024 Certificates.

The Series 2024 Certificates are not subject to conversion or optional redemption by the Authority, at the direction of NGHS, prior to maturity. NGHS has the option to purchase the Series 2024 Certificates in lieu of optional redemption prior to maturity. If a 2024 Certificate has been called for optional redemption, NGHS may exercise its right to purchase by delivery to the Bond Trustee, on or prior to the business day preceding the optional redemption date, of written notice from NGHS specifying that the Series 2024 Certificates shall not be redeemed, but instead shall be purchased. Upon delivery of such notice from NGHS, and delivery by NGHS of funds for the purchase of such Series 2024 Certificates on or prior to the purchase date, the Series 2024 Certificates shall not be redeemed but shall instead be subject to mandatory tender on the date that would have been the optional redemption date at a purchase price equal to the redemption price, which is the principal amount thereof plus accrued interest, that would have been payable with respect to such Series 2024 Certificates. Series 2024 Certificates purchased (i) shall not be canceled or retired but shall continue to be outstanding, (ii) shall be delivered to, or as directed by, NGHS, and (iii) shall continue to bear interest at a rate of 5.00% where interest is accrued based on the actual number of days elapsed during the interest rate period and a year of 360 days. In the event that NGHS fails to purchase such Series 2024 Certificates, in lieu of redemption, the Series 2024 Certificates so called will be redeemed on the date on which they are called for redemption.

In September 2021, the Obligated Group issued Revenue Anticipation Certificates Series 2021A, in the aggregate principal amount of \$221,535, and Taxable Revenue Anticipation Certificates Series 2021B, in the aggregate principal amount of \$242,120, collectively referred to herein as the Series 2021 Certificates. The proceeds of the sale of the Series 2021 Certificates were used to (i) advance refund the outstanding amounts and issuance costs of the Series 2014A Certificates, (ii) pay related costs of issuing the Series 2021 Certificates, and (iii) finance a portion of the cost of the acquisition, construction, renovation, installation, and equipping of additions or improvements to the healthcare facilities operated by NGHS and its affiliated in Hall County, Georgia. The Series 2021A Certificates bear interest ranging from 2.50% to 5.00%. Except during a term or fixed interest rate period, interest on the Series 2021A Certificates shall accrue interest based on the actual number of days elapsed during the interest rate period and a year of 360 days. The Series 2021A Certificates bearing interest at 4.00% and maturing on February 15, 2046, are subject to mandatory sinking fund redemption payments beginning February 15, 2042, and ending February 15, 2046, which range from \$3,190 to \$3,830. The Series 2021B Certificates maturing on February 15, 2046, are subject to mandatory sinking fund redemption payments beginning February 15, 2041, and ending February 15, 2046, which range from \$5,475 to \$21,055. The Series 2021B Certificates maturing on February 15, 2054, are subject to mandatory sinking fund redemption payments beginning February 15, 2047, and ending February 15, 2054, which range from \$21,680 to \$26,745. The sale proceeds of the Series 2021A Certificates were subject to issuance costs of \$1,624 and will be amortized monthly in accordance with the term of the Series 2021B Certificates.

The Series 2021B Certificates maturing on February 15, 2046, and February 15, 2054, are subject to optional redemption prior to maturity at the option of NGHS on or after November 15, 2045, and November 15, 2053, respectively, at a redemption price of the entire principal amount of such Series 2021B Certificates to be redeemed. If redeemed prior to these dates, a redemption price equal to the Make-Whole Redemption Price, as determined by an independent accounting firm or financial advisor, plus accrued interest shall be paid.

In March 2020, the Obligated Group issued Revenue Anticipation Certificates Series 2020A, in the aggregate principal amount of \$339,260. The proceeds of the sale of the Series 2020A Certificates were used to (i) advance refund the outstanding amounts of the Series 2010A, Series 2010B, Series 2011A, Series 2014B, Series 2017C, and the Series 2017D Certificates which were issued to finance or refinance a portion of the cost of the acquisition, construction, installation, and equipping of hospital and related facilities for NGHS or its affiliates, and (ii) pay related costs of issuing the Series 2020A Certificates. The Series 2020A Certificates bear interest ranging from 3.00% to 5.00%. Except during a term or fixed interest rate period, interest on the Series 2020A

Certificates shall accrue interest based on the actual number of days elapsed during the interest rate period and a year of 365 days. The 2020A Certificates maturing on February 15, 2045, are subject to mandatory sinking fund redemption payments beginning February 15, 2041, and ending February 15, 2045, which range from \$14,440 to \$17,370. The 2020A Certificates maturing on February 15, 2047, are subject to mandatory sinking fund redemption payments beginning February 15, 2046, and ending February 15, 2047, which range from \$24,300 to \$25,040. The sale proceeds of the Series 2020A Certificates were subject to an original issue premium and issuance costs of \$63,777 and \$2,822, respectively, and will be amortized monthly in accordance with the term of the Series 2020A Certificates.

In February 2017, the Obligated Group issued Revenue Anticipation Certificates Series 2017A, Series 2017B, Series 2017C, and Series 2017D in the aggregate principal amount of \$460,565. The proceeds of the sale of the Series 2017 Certificates were used to (i) advance refund a portion of the outstanding amount of the Series 2010A and Series 2010B Certificates, (ii) finance a portion of the costs of certain additions and improvements to, and equipment for, the healthcare facilities operated by NGHS and its affiliates in Hall County, Georgia, and (iii) pay related costs of issuing the Series 2017 Certificates.

The Series 2017A Certificates consist of \$170,025 term certificates maturing at various dates through February 15, 2045, bearing interest at rates ranging from 4.00% to 5.00% and subject to mandatory sinking fund redemption payments beginning February 15, 2038, and ending February 15, 2042, which range from \$10,775 to \$12,995; and mandatory sinking fund redemption payments beginning February 15, 2043, and ending February 15, 2045, which range from \$11,825 to \$13,065. Certificates maturing on or after February 15, 2028, are subject to optional redemption at par plus accrued interest by the Authority, at the direction of NGHS, on or after February 15, 2027.

The Series 2017B Certificates consist of \$140,540 term certificates maturing at various dates through February 15, 2045, bearing interest at rates ranging from 3.75% to 5.50% and subject to mandatory sinking fund redemption payments beginning February 15, 2038, and ending February 15, 2042, which range from \$6,215 to \$10,460; and mandatory sinking fund redemption payments beginning February 15, 2043, and ending February 15, 2045, which range from \$6,890 to \$7,655. Certificates maturing on or after February 15, 2028, are subject to optional redemption at par plus accrued interest by the Authority, at the direction of NGHS, on or after February 15, 2027.

The advance refunding of the 2014A Certificates was accomplished by placing funds in an escrow account to cover all remaining scheduled principal and interest payments through the February 15, 2025, redemption date. As of September 30, 2024, the balance of deposits in escrow was \$208,266. Following the redemption date of February 15, 2025, the escrow account was fully utilized, and there was no remaining balance at September 30, 2025. Accordingly, the related debt was fully

redeemed as of September 30, 2025, and considered defeased at September 30, 2024, and is not recorded in the Balance Sheets. All other advance refundings previously disclosed were fully redeemed with their respective escrow deposits prior to September 30, 2021.

The Series 2017B and Series 2021B Certificates are also secured by an Intergovernmental Contract between the Authority and Hall County, Georgia. If the Obligated Group fails to timely pay these Certificates, Hall County has promised to assess up to seven mills of property tax as an additional source of payment for the Certificate holders.

Scheduled maturities of long-term debt, excluding unamortized original issue discounts and premiums, for each of the next five years and in the aggregate at September 30, 2025, are as follows:

NOTE I--PENSION PLAN

NGHS sponsors a defined benefit pension plan (the Plan). An employee was eligible to participate in the Plan following the attainment of age 21 and completion of at least 1,000 hours of service during a calendar year. Generally, NGHS and its affiliates make annual contributions to the Plan equal to the amount necessary to meet the minimum funding standards of ERISA. Employees are not permitted to contribute to the Plan.

Normal retirement benefits are provided at the later of age 65 or on the participant's fifth anniversary of entering the Plan. Early retirement benefits are available at age 55 and completion of ten years of vesting service. Prior to changes in the Plan (discussed below), the Plan also provided for disability, death, and delayed retirement benefits.

The plan formula changed effective January 1, 2006, so that the benefit is equal to a past service benefit plus a future service benefit. The past service benefit is equal to the benefit earned as of December 31, 2005, under the existing formula. The future service benefit is equal to 1% of earnings for each calendar year in which the participant works at least 1,000 hours.

Effective December 31, 2005, at midnight, the defined benefit pension plan was closed to new employees. Additionally, the Plan no longer provided disability benefits. Effective December 31, 2020, at midnight, the Plan was frozen for the accrual of additional benefits. No further benefits are accrued on behalf of a participant for service or earnings after December 31, 2020.

The following table sets forth the Plan's changes in projected benefit obligations, changes in the Plan's assets, and funded status of the Plan as determined by management with assistance from the Plan's independent consulting actuary at September 30, 2025 and 2024:

Benefits paid in the above table include only those amounts paid directly from plan assets in fiscal years 2025 and 2024.

The accumulated benefit obligation (ABO) of the Plan was \$220,285 and \$231,690 at September 30, 2025 and 2024, respectively. In accordance with generally accepted accounting principles, NGHS recognizes the funded status of the Plan as an asset or liability, and the gains or losses and prior service costs or credits not yet recognized as pension expense, as a change in net assets without donor restrictions. Due to the Plan being frozen during fiscal year 2021, future pay is no longer considered in determining the accrued benefit for the remaining active participants and as such the ABO is equal to the projected benefit obligation (PBO) at September 30, 2025 and 2024.

Amounts recognized in the Consolidated Balance Sheets of NGHS consist of the following:

	<i>2025</i>	<i>2024</i>

Unrecognized net actuarial loss	\$ 27,163	\$ 29,976
	<u>\$ 27,163</u>	<u>\$ 29,976</u>

Net periodic pension cost and other amounts recognized in net assets without donor restrictions of NGHS consist of the following:

	<u>2025</u>	<u>2024</u>
Net periodic pension cost		
Service cost with interest to year-end	\$ 1,040	\$ 990
Interest cost on the projected benefit obligation	11,275	11,906

The actuarial assumptions used for the Plan as of September 30, 2025 and 2024, are as follows:

Discount rates	5.40%	5.00%
Rates of increase in future compensation levels	varies by age	varies by age
Expected long-term rate of return on plan assets	6.50%	6.50%
Rates of increase in maximum benefit and compensation limits	N/A	N/A

The discount rate has a significant effect on the calculation of the pension benefit obligations. Estimates used in the discount rate and other assumptions are subject to change in the future.

The determination of the expected long-term rate of return on plan assets is based on assumptions that are developed by the Plan's investment consultant for each investment category as to the rate of return, risk, yield, and correlation with other categories that serve as components of the long-

term strategy. Based on these assumptions, eligible components are tested over the desired time frame given the acceptable tolerance of risk determined by NGHS. The expected long-term rate of return reflects assumptions as to continued execution of the current strategic asset allocation, modern portfolio theory, and the Plan's investment policy.

The composition of plan assets at September 30, 2025 and 2024, is as follows:

	<i>Carrying Value</i>	<i>Quoted Prices in Active Markets (Level 1)</i>	<i>Significant Other Observable Inputs (Level 2)</i>	<i>Significant Unobservable Inputs (Level 3)</i>
<i>September 30, 2025</i>

	<u>\$ 326,772</u>	<u>\$ 272,578</u>	<u>\$ 54,194</u>	<u>\$ -</u>

NGHS' investment policy requires the pension fund to reflect the requirements of ERISA and to be managed within the following diversification parameters: large and mid-cap multi-national equities of 25-40%; dividend-oriented equities representing a defensive equity strategy with loss mitigation provided by covered call options of 25-40%; and investment grade fixed income securities with an emphasis on intermediate maturities of 20-25%. No contributions were made by NGHS to the Plan during fiscal year 2025 or 2024. No contributions are expected in future years.

Estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows:

NOTE J--OTHER RETIREMENT PLANS

During 2006, NGHS created the Northeast Georgia Health System, Inc. 401(k) Retirement Savings Plan for substantially all employees. Prior to January 1, 2024, matching contributions by the System were 100% of each employee's elective deferrals up to 1% of compensation and 50% of each employee's elective deferrals that exceed 1% of compensation but that do not exceed 6%. During the year ended September 30, 2024, the Plan was amended to increase the System's matching contributions. Effective January 1, 2024, matching contributions by the System are 100% of each employee's elective deferrals up to 2% of compensation and 50% of each employee's elective deferrals that exceed 2% of compensation but that do not exceed 6%. During the year ended September 30, 2025, the Plan was amended again to increase the System's matching contributions. Effective January 1, 2025, matching contributions by the System are 100% of each employee's elective deferrals up to 3% of compensation and 50% of each employee's elective deferrals that exceed 2% of compensation but that do not exceed 6%. Expense for NGMC under the 401(k) Retirement Savings Plan was \$22,814 and \$17,915 for the years ended September 30, 2025 and 2024, respectively.

NGHS also has other deferred compensation and benefit plans maintained for specific purposes. Assets and liabilities are included in the accompanying financial statements of NGMC where appropriate.

NOTE K--ESTIMATED LIABILITY FOR SELF-INSURANCE CLAIMS

NGHS has established trust funds for the purpose of funding professional liability and self-insured workers' compensation, which covers NGMC up to specified retention levels, generally \$7,000 per occurrence and \$38,000 in the aggregate (annually) for professional liability and \$500 per occurrence for workers' compensation with no annual aggregate. Losses exceeding aggregate annual limits up to maximum limits are covered by insurance purchased from commercial carriers, and management intends to maintain such insurance coverage in the future. As of September 30, 2025, management is not aware of any claims that will ultimately settle above the specified retention levels and, accordingly, has not recognized any insurance recovery receivables.

Funding for professional liability is on a claims-made basis, while workers' compensation is determined on an occurrence basis. Funding of the trusts is based upon estimates of potential liability provided by annual independent actuarial valuations and includes provisions for claims reported and claims incurred but not reported in excess of insurance limits. NGMC is involved in

litigation relating to medical malpractice and workers' compensation and other claims arising in the ordinary course of business. There are also known incidents occurring through September 30, 2025, that may result in the assertion of additional claims, and other unreported claims may be asserted arising from services provided in the past. Estimated self-insurance liabilities in the Consolidated Balance Sheets of NGHS and affiliates consist of amounts accrued by NGHS related to these self-insurance programs and have not been discounted. Amounts accrued by NGHS were approximately \$95,942 and \$82,168 at September 30, 2025 and 2024, respectively. Operating expenses for the years ended September 30, 2025 and 2024, include \$1,420 and \$923, respectively, for professional liability and workers' compensation.

NGHS maintains a self-insurance program to provide medical and dental coverage for eligible employees and their dependents. Reinsurance above \$225 annually per individual with no aggregate limit is maintained through a commercial excess coverage policy. Operating expenses in the accompanying Statements of Operations and Changes in Net Assets for the years ended September 30, 2025 and 2024, include \$79,384 and \$66,184, respectively, related to these benefits. At September 30, 2025 and 2024, \$14,701 and \$5,887, respectively, in estimated incurred, but unpaid medical and dental claims are included in accounts payable and accrued expenses in the accompanying Balance Sheets.

NOTE L--CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject NGMC to concentrations of credit risk consist primarily of cash and cash equivalents, investments and assets limited as to use (Note D), and patient revenue and accounts receivable.

NGMC places cash and cash equivalents with banking institutions that are insured by the Federal Deposit Insurance Corporation. At times, NGMC has deposits in excess of these insurance limits. NGMC is exposed to loss of the uninsured amounts in the event of nonperformance by the banking institution; however, NGMC does not anticipate any such losses.

NGMC grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer agreements. The estimated mix of patient service revenue from patients and major third-party payers for the years ended September 30, 2025 and 2024, is as follows:

	<u>2025</u>	<u>2024</u>

NOTE M--OPERATING EXPENSE BY FUNCTIONAL CLASSIFICATION

NGMC provides healthcare services to residents within its geographical location. Expenses are allocated by function based on estimates of employees' time incurred, usage of resources, and other methods. Expenses based on functional classification related to providing these services during the years ended September 30, 2025 and 2024, are as follows:

NOTE N--AVAILABILITY AND LIQUIDITY

NGMC manages its cash and investments through a formalized investment process, which includes evaluating cash needs for routine and nonroutine activities and adjusting the amount of cash held and the maturity of investments. NGMC's financial assets reduced by amounts not available for general use are as follows at September 30, 2025:

Financial assets	\$ 1,898,279
Less those unavailable for expenditures within one year, due to:	
Amounts restricted under insurance agreements, bond agreements, board designation, or other	<u>(25,022)</u>
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 1,873,257</u>

NOTE O--RELATED PARTY TRANSACTIONS

NGMC routinely engages in transactions with NGHS and other controlled affiliates of NGHS, including Northeast Georgia Physician Group, Inc. (NGPG), NGMC-Barrow, LLC (NGMC-

Barrow), NGMC-Lumpkin, LLC (NGMC-Lumpkin), NGMC-Habersham, LLC (NGMC-Habersham), Northeast Georgia Home Health (NGHH), The Georgia Heart Institute, LLC (GHI), Northeast Georgia Health Partners, LLC (NGHP), Northeast Georgia Health Partners Network, LLC (NGHP Network), Northeast Georgia Rehabilitation Hospital (NGRH), Northeast Georgia PEO, LLC (PEO), Lanier Community Assurance, Ltd. (LCA) and The Medical Center Foundation (the Foundation). Amounts due from affiliates bear no interest and represent capital and other expenditures paid on behalf of affiliates at September 30, 2025 and 2024, respectively.

In 2025 and 2024, NGMC purchased capital assets for NGHS in the amounts of \$14,623 and \$31,204, respectively, for NGPG in the amounts of \$3,079 and \$5,300, respectively, for NGMC-Barrow in the amount of \$2,563 and \$2,473, respectively, and for NGMC-Lumpkin in the amount of \$646 and \$23,933, respectively. NGMC purchased capital assets in the amount of \$202 and \$302 for NGHP in 2025 and 2024, respectively. NGMC purchased no capital assets for the Foundation in fiscal year 2025 and \$12 of capital assets in 2024 for the Foundation. NGMC purchased capital assets of \$1,530 and \$346 for GHI in 2025 and 2024, respectively. NGMC also purchased \$3,648 of capital assets for NGMC-Habersham in fiscal year 2025, and \$1,365 of capital assets were purchased for NGMC-Habersham in fiscal year 2024. During fiscal years 2025 and 2024, NGMC purchased \$26,179 and \$11,330 of assets, respectively, for NGRH.

During 2025 and 2024, donations in the amounts of \$4,344 and \$3,201, respectively, were received from the Foundation.

In 2025 and 2024, NGHS charged NGMC with allocated management fees in the amounts of \$185,833 and \$172,422, respectively. Based on NGHS overhead cost allocations, certain salary, insurance, information technology costs, and other operating expenses are recognized in other operating expenses rather than natural classification. Administrative overhead allocated from NGMC was \$22,577 and \$20,338 for the years ended September 30, 2025 and 2024, respectively.

During 2025 and 2024, amounts due to/from NGHS, NGMC-Barrow, NGMC-Lumpkin, NGMC-Habersham, NGHP Network, GHI, NGPG, PEO, NGHH, and NGHP were transferred from/to those entities through a non-cash transfer of net assets as reflected in the accompanying Statements of Operations and Changes in Net Assets. Accrued salaries include \$24,755 and \$13,456 as of September 30, 2025 and 2024, respectively, related to affiliated entities that were included in the non-cash transfers of net assets. The transfer of net assets, including the amounts due to/from these related parties, consisted of the following for the years ended September 30, 2025 and 2024:

	<u>2025</u>	<u>2024</u>
NGHS	\$ (3,949)	\$ 46,461

Other transfers of equity to/from affiliates include approximately \$2,543 and \$2,657 in 2025 and 2024, respectively, related to routine operating support for the Foundation. During 2025 and 2024, total assets released from restrictions at the Foundation for capital purposes were \$3,427 and \$2,011, respectively.

NOTE P--CORONAVIRUS DISEASE 2019 (COVID-19) IMPACT

In March 2020, the outbreak of the coronavirus disease 2019 (COVID-19) was declared a public health emergency (PHE). Government support, including the Coronavirus Aid, Relief, and Economic Security (CARES) Act, provided essential funding to eligible hospitals, physicians, and other healthcare providers. During the year ended September 30, 2020, NGMC received approximately \$74,198 of CARES Act Provider Relief Funds (PRF). A portion of this amount, totaling \$38,859, was recognized as revenue as of September 30, 2020, to offset estimated lost revenue and COVID-19-related expenses incurred based on the initial reporting guidelines published by the Department of Health and Human Services (HHS). The remaining amount was recorded as unearned revenue as of September 30, 2020, to be recognized when expended for the intended purposes or repaid. NGMC received approximately \$512 of PRF during the year ended September 30, 2021. The entire amount of this funding along with the amounts recorded as unearned revenue as of September 30, 2020, were recognized as revenue as of September 30, 2021, based on the revised reporting guidelines published by HHS on June 11, 2021. During the year ended September 30, 2022, NGMC received approximately \$14,300 from the American Rescue Plan (ARP) for services provided to rural Medicaid and Medicare beneficiaries from January 1, 2019, through September 30, 2020, that was recognized as revenue as of September 30, 2021. During the years ended September 30, 2025, 2024, and 2023, no additional PRF funding was received. NGMC deferred recognition of 25% of all PRF funds received through September 30, 2021, as management held the belief that HHS, based on the other significant changes occurring since the outbreak of COVID-19 in rules for recognizing revenue from PRF funds issued by HHS,

could again change the current terms and conditions regarding the recognition of PRF funds. During the year ended September 30, 2023, half of this deferred funding was released, and \$8,385 of the unearned revenue remaining at September 30, 2022, was recognized as revenue. During the year ended September 30, 2024, the remaining half of this deferred funding was released, and \$8,385 of the unearned revenue remaining at September 30, 2023, was recognized as revenue. No deferred revenue related to PRF funding is remaining at September 30, 2025 or 2024, and no revenue related to PRF funding was recognized during the year ended September 30, 2025.

NOTE Q--FAIR VALUE OF FINANCIAL INSTRUMENTS

NGMC has estimated the fair value of financial instruments using available market information as of September 30, 2025 and 2024, and the valuation methodologies considered appropriate. The estimates presented are not necessarily indicative of amounts that NGMC could realize in a current market exchange.

Cash and Cash Equivalents: The carrying amounts reported in the Balance Sheets for cash, cash equivalents, and short-term investments approximate fair value.

Investments: Fair value of issues traded on public exchanges is based on the market price in such exchanges at year end. The fair value of other issues is also based on quoted market prices.

Assets Limited as to Use: Fair value of issues traded on public exchanges is based on the market price in such exchanges at year end. The fair value of other issues is also based on quoted market prices and other observable inputs.

Estimated Self-Insurance and Other Long-Term Liabilities: It is not practical to estimate the fair market value of estimated self-insurance liabilities due to the uncertainty of when these amounts may be paid. Deferred compensation liabilities are based on the related investments which are reported at fair value.

The carrying value of certain other financial instruments approximates fair value due to the nature and short-term maturities of these investments.

NOTE R--FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establish a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

NORTHEAST GEORGIA MEDICAL CENTER, INC.
(A Controlled Affiliate of Northeast Georgia Health System, Inc.)

Notes to Financial Statements - Continued
(Dollars in Thousands)

Years Ended September 30, 2025 and 2024

- *Level 1:* Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- *Level 2:* Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- *Level 3:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In instances where the determination of the fair value hierarchy measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. NGMC's assessment of the significance of a particular input to the fair value presentation in its entirety requires judgment and considers factors specific to the asset or liability.

The following table presents assets and liabilities reported at fair value and their respective classification under the valuation hierarchy:

	<i>Carrying Value</i>	<i>Quoted Prices in Active Markets (Level 1)</i>	<i>Significant Other Observable Inputs (Level 2)</i>	<i>Significant Unobservable Inputs (Level 3)</i>

NOTE S--COMMITMENTS AND CONTINGENCIES

NGHS construction in progress at September 30, 2025, relates primarily to ongoing projects, routine capital improvements at existing facilities, and scheduled projects related to an NGHS Development Plan to be completed over the next several years. The estimated cost to complete current construction in progress at September 30, 2025, is approximately \$213,875 over that time frame, primarily related to the construction of the Braselton Clinical Expansion. Cost to complete construction in progress under signed contracts at September 30, 2025, is approximately \$117,130.

Healthcare Industry: The healthcare industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, Medicare fraud and abuse, and under provisions of the Health Insurance Portability and Accountability Act of 1996, patient records, privacy, and security. Government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs, together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

NOTE T--SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued. During this period, management did not note any material recognizable subsequent events that required recognition or disclosure in the September 30, 2025, financial statements.
